

SOAP API CREATION

Adobe API Manager – SOAP API – Create

01

In the event your organization prefers to utilize SOAP instead of REST, the API Manager does provide a simple process to create these API's.

02

In the API Manager click on the “Import SOAP API”. We will use the same SOAP WSDL as the previous example for these API creations.

A

Import SOAP API

B

Sample SOAL WSDL

<https://www.dataaccess.com/webservicesserver/NumberConversion.wso?wsdl>
