# SWAGGER CREATION

Adobe API Manager – Swagger - Create

01 Use the "Import REST API From Swagger" to begin the import process.

Import REST API From Swagger

02 With Swagger you have several options to import the services. You can use a direct URL paste to a JSON file, a copy/paste from the JSON, or upload a JSON file. All achieve the same results.

Import REST API From Swagger ✕

https://petstore.swagger.io/v2/swagger.json

Or

Enter swagger Json

Or

Browse... No file selected.
